Hybrid Models

Dynasty	New floor-standing hybrid!	\$ 9,430
MiniStat	bookshelf Updated - self-bias!	\$ 3,500
WallStat	Updated – self-bias!	\$ 4,080

Notes:

- A wide selection of woods, finishes and grille fabrics are optionally available.
- All full-range models listed above include the Toroid II, Hot-Rod and Bass-Focus technologies as standard.
- The MiniStat utilizes a self-bias system that does not require connecting the speakers to the AC mains.
- New model designations: The new model designation refers to the style (Ultimate and Majestic), the speaker height (5', 6', 7', 8' and 9') and the horizontal dispersion angle (45 degree and 90 degree available). For example, the Majestic 745 has a height of approximately 7' and has 45 degree horizontal dispersion.
